

FIST-GPS3

FIST blue label splice/patch shelf

The blue label splice/patch shelf, FIST-GPS3 is a mechanical shelf assembly for the FIST fiber management system in a FIST-GR3 rack.

Since patchcords are better managed in a horizontal plane, patching trays are used instead of front panels.

FIST-GPS3 is typically used in conjunction with FIST splice and patch trays (FIST-GPST-12).

These trays have the following features

The shelf has following functions and features

- Patching only, using patchcords, connectorized break-out or intra-facility cables
- Splicing loose tube cables, non-connectorized intra-facility or break-out cables to pigtails and patching these pigtails to patchcords
- Possibility to integrate splitters
- 15" or 19" version
 - o 15" includes a FIST-GR3F mounting bracket
 - o 19" includes a FIST-GR3 ETSI mounting bracket
- Available in 4 different heights (44, 88, 125 and 167 mm)
- Kits available to attach cables at the side or the back of the shelf
- Wraparound side panel and pigtail guide for easy repatching (not for 44 mm version)

- Clean: both sides are easily accessible for cleaning the adapter
- Safe: laser light is oriented perpendicularly towards the operator
- Accessible: full access at both sides of the connection
- Reconnection to other positions in the same tray or shelf does not result in uncontrolled overlengths
- Various connector adapters are possible
- Bend controls guide and protect the pigtail cable and ensure controlled cable bending

Dimensions (in mm), capacity

Description	Dimensions			Max. capacity connectors Std*/SFF**	The shelf unit is painted (powder coated) in light grey (RAL 7035).
